

*We invite you to become a sustaining annual sponsor
of the Youth Automotive Training Center,
supporting the mission and traditions that
Our Founder Jim Moran set for the program in 1984.*

2021-2022 Sustaining Annual Sponsorships

Youth Automotive Training Center®

Founded in 1984 by *Jim Moran*

***YATC is funded solely by generous donors like you
and receives no government funding.
Contributions of any amount are greatly appreciated.***

SUPPORT THE YATC MISSION

PRACTICAL AUTOMOTIVE SKILLS

Through YATC's intensive hands-on curriculum and individual instruction, students learn automotive theory and gain technical skills in both large and small group formats. YATC meets the individual needs of each student to help them begin a successful career in the automotive industry or use the knowledge they've gained to build a career that interests them most.

CRITICAL LIFE SKILLS

Students are given personalized attention to foster vital interpersonal, professional and life management techniques. Twice weekly, Life Skills classes help students understand how to handle real-life situations, become familiar with current events and better comprehend issues in society and politics. Subjects such as job interviewing, resume writing, setting and achieving goals and health and personal wellness are covered. Field trips, guest speakers and team-building activities enrich the student experience.

FOUNDATIONAL ACADEMIC SKILLS

Professional instructors and caring tutors offer students tailored guidance designed to grow their academic skills. Test preparation and targeted support enable students achieve their high school diplomas or specialized mechanical certifications. This unique element of the YATC program helps students improve academic knowledge based on each student's distinct needs using curricula designed to specifically advance the individual's academic skills.

YATC's outreach does not end at graduation. Alumni can receive scholarships to further their education or technical training, as well as job placement, test preparation help and other critical support services.

\$150,000+ Founding Sponsorship

This unique title is dedicated to the sponsor with a generous contribution history that spans the life of the YATC program.
